Program Details

Community Gardening: Join us as we tend our plots and care for the community garden. It's a great time to learn about the community garden and get your volunteer hours in by helping us keep the garden beautiful.

Mayflower How To Start Your Garden: Learn about seed starting and caring for seedlings. At the end of this 4-week program, participants will transplant their starts and take them home to add to their home garden.

Community Cookout: Join us for hot dogs, snow cones, and family fun in the garden behind the library.

Learn How to Trellis Blackberries: Join us and UCA volunteers to learn how to build a post-and-wire trellis system for blackberries. We will be building our trellises in the blackberry patch behind the library.

Master Gardeners Present, Fall Vegetable Gardening: It's NOT too early. This is the perfect time of year to plan and start your fall garden. Join the director of the UofA Extension Office, Krista Quinn, and learn some handy tips and tricks for a successful fall harvest.

Make Your Own Compost: Stop wasting money! Learn how to make your own compost on a small scale at home for your house plants or garden. It's easier than you think and your plants will love you for it.

Grounding In The Garden: Grounding is more than a physical act, it's a return, an exchange with Mother Earth. Come experience what all this means and more!

**** Children MUST be accompanied by an adult for all programs ****

Did you know we have a community seed bank? We are home to Arkansas' oldest seed library! Patrons may take seeds home for their personal gardens (or use them in the community garden). Ask the front desk how it works.

Want to volunteer? Ask about helping pack seeds to help maintain our seed library and seed cart, or helping in the community garden.

Please contact Shawn "The Garden Guy" for more information.
