Program Details

Arbor Day: Celebrate Arbor Day with the Conway Tree Board and the Faulkner County Master Gardeners at Laurel Park. The Faulkner County Urban Farm Project will have a table with information about our community garden & garden programs.

Group Gardening: Join us in the community garden to work our plots, water, and work together to make our garden beautiful. It's a great time to socialize and learn from each other. Children welcomed with adult supervision. Shawn, the Garden Programmer, will be on hand to help and answer questions.

**** Please note time changes due to shorter autumn days ****

Conway Art Walk: Visit our table at the Art Walk from 5 - 8 pm and create your own fun crafts to take home.

Rock Painting In The Garden: Have fun exploring the garden and creating your own special artwork.

**** Weather dependent. Some activities may be moved indoors. ****

Propagation Station: Ever wanted to learn how to start new plants from your existing plants? We will be using library plants to teach basic propagation techniques and plant care. Each participant will get to take home one new plant.

Nature Therapy: This program will introduce you to nature therapy and show you how it works, helping you discover how this might be the support tool you're looking for. This month we will discover how sketching can help us focus, relax, and learn to see the world around us with fresh eyes. **** Weather dependent ****

Bonfire & S'mores: Join us in the garden for a bonfire and s'mores. A fun time to enjoy the garden and socialize with your fellow library patrons. We will also have a rock painting table set up for all to enjoy. **** Weather dependent ****

Indoor Gardening Basics: Gardening expert Jeff McMillan will be on hand to teach how to set up your own simple indoor garden and grow food indoors year-round. This is a hands-on program. We will be assembling a real working indoor garden inside the library.

Did you know we have a community seed bank and library?

We are home to Arkansas' oldest seed library! Patrons may take seeds home for their personal gardens (or use them in the community garden). Ask the front desk how it works.
